

# ONE 4 ALL

The project aims to boost **manufacturing plants'** transformation towards industry 5.0, reinforcing their resilience under unexpected changes in social needs. It is done through self-reconfigurable mobile **collaborative robots** embedded with **IIOT devices** for real-time monitorisation and interconnectivity.

SELF-RECONFIGURABLE  
COBOTS

INTEGRATION  
PLATFORM

HUMAN-CENTRIC  
DESIGN

The collaborative robots will be tested in two relevant environments:

AGRI-FOOD

PHARMACEUTICAL

# CONSORTIUM
